Do you walk into a room and imagine how you would change it? Do you enjoy sketching and working with colors and fabrics? Consider a career in interior design. Through this versatile program, you can prepare to pursue a bachelor’s degree in Interior Design, take courses to explore the field or focus on portfolio development.

“Employers increasingly prefer interior designers who are familiar with computer-assisted design (CAD) software.”

Interior designers shape the way buildings and houses look on the inside. As an interior designer, you:

- help plan building layouts
- choose style and color palette
- select furniture, floor and window coverings
- determine the lighting scheme

You often work with architects and building contractors as a vital part of the design construction team.

The Interior Design program combines a liberal arts foundation with these specialized features:

- a studio design course each semester
- classes in all of the types of drawing used in this field
- emphasis on meeting professional standards
- guidance in showcasing abilities with a portfolio or Web site
- experienced, supportive faculty

The program features top-of-the-line professional software and computer availability rarely found in college programs in this region.

**Career Paths**

Graduates of this program who transfer and earn a bachelor’s degree in Interior Design can work in many interesting settings:

- architecture, engineering and interior design firms
- office design firms
- building materials companies
- self-employment

Interior designers are involved in almost every setting—from airport terminals and restaurants to private residences.

According to the U.S. Department of Labor’s *Occupational Outlook Handbook*, “Interior designers need to know the basics of architecture and engineering in order to ensure that the designs meet building safety codes.”
The Interior Design Program
Interior Design students take their core courses with students in the Construction Management, CAD and Architecture programs. In this interdisciplinary learning community, each student explores the fields that interrelate closely with his or her specialization. This program is the only one in the region where students learn alongside their counterparts in three related fields.

Lectures by experts and trips to interior design showrooms and building interiors further enrich the program.

Salaries
Median annual wage – $43,970*

The A.A. in Interior Design offers the opportunity to learn:

- design styles, from traditional to the present
- guidelines for using lighting and color
- freehand, digital, technical and presentation drawing
- design of space, color and texture
- design techniques for implementing a client’s wishes
- legal and ethical considerations
- methods of conveying ideas to clients and colleagues

The Interior Design program is for students interested in transferring to a bachelor’s degree program. The College has transfer agreements with area institutions, including Drexel University, Philadelphia University and Moore College of Art, allowing for a seamless transfer.

Areas of Study
This curriculum includes courses in Design Studio, Computer-Assisted Design, Color Theory and Interior Detailing and Architecture and Interiors History.

Admission to the College
Prospective students are strongly encouraged to apply early prior to the start of a term in order to complete the appropriate steps for enrollment. For more information about admission to the College and important dates, including open house information, visit our Web site at www.ccp.edu, call 215-751-8010 or e-mail admissions@ccp.edu.

Affirmative Action Statement
Community College of Philadelphia is committed to the principles of equal employment and equal educational opportunity for all persons without regard to race, color, ancestry, creed, national or ethnic origin, age, sexual orientation/preference, religion, sex, disability or status as a disabled veteran or veteran of the Vietnam Era, in the administration of its educational programs, activities, or employment in accordance with applicable Federal statutes and regulations. Any questions regarding this statement should be directed to the Director, Office of Diversity and Equity, located in Room M2-3; telephone number 215-751-8039.
