General Information: CCP and La Salle have entered into a dual admissions agreement. The agreement stipulates that students who earn an approved associate degree program at CCP with a minimum 3.0 cumulative GPA and a 3.0 science GPA (Biol 109, 110, 241, Chem 110) are admitted to La Salle with junior standing provided that there is space in the program. Appropriate CCP degree programs are the AAS in Nursing or the AA in Culture, Science. Liberal Arts is also possible. Students in liberal arts should integrate biology, chemistry, sociology, psychology, statistics, nutrition, philosophy and religion recommendations below into the CCP program. To take advantage of the dual admissions agreement, a student must sign a dual admissions agreement form before the completion of 45 credits. The dual admissions form serves as the application to La Salle. No application fee is required. Scholarships are awarded to any full-time dual admissions student with a cumulative GPA of at least 3.0 (range from $12,000 to $18,000 per year). Dual admissions forms are available in the division of Educational Support Services, Room W1-1. This guideline is based on the AA in Culture, Science & Technology. See La Salle dual admissions information guide for clarification of expectations for entry to La Salle nursing. All students who are not full-time at CCP for a full academic year prior to enrollment at La Salle must seek admission through the Achieve part-time evening program. If students are not in the dual admissions program and do not earn an associate, they are responsible for the entire La Salle core requirement. Courses listed below as “recommended” would have to be completed for these students.
