System Requirements - Any device with Wi-Fi capability. This includes any mobile device.

Connection Information – The Wi-Fi within the College is a non-broadcasting network. We do this to limit non-college resources from accessing the network. To set your device connection, go to your device’s Network and/or Wi-Fi connection settings location. Manually ‘Add’ a network using the SSID of **CCP WLAN** with Open Security. The ‘CCP WLAN’ SSID must be entered as shown here. If asked, check Obtain an IP address automatically. That’s it! Happy Surfing.

If you need help beyond this document, please contact the ITS Support Desk at 215-496-6000.
