Section 4207 of the Patient Protection and Affordable Care Act (also known as Health Care Reform) is an amendment that requires employers to provide reasonable break time and a private, non-bathroom place for nursing mothers to express breast milk during the workday for up to one year after the child’s birth.

Pursuant to this federal law, the College will provide a private place for nursing mothers (employees) who wish to express breast milk during the workday. Should you need this accommodation, please contact the Human Resources Director of Benefits, 215-751-8208, or the Coordinator of Benefits, 215-751-8038. They will coordinate and secure one of the rooms we have designated for this purpose.
